VCE-VM Learning Units

The Victorian Certificate of Education Vocational Major – VCE VM is a senior pathway option for Years 11 and 12 students grounded in applied and vocational learning.

The VCE VM gives you realistic, work-related experience, as well as literacy and numeracy skills and the opportunity to build personal skills that are important for life and work. Like the Victorian Certificate of Education (VCE), it is a recognized senior secondary qualification. The VCE VM aims to provide students with the skills, knowledge and attitudes to make informed choices about pathways to work and further education.

Students who do the VCE VM are likely to be interested in going onto training at a Technical and Further Education (TAFE) institute, starting an apprenticeship, or securing full-time employment after completing school.
